How Can We Help You?

Blaz'N Diagnostics Auto Care was created in 2003 and has been growing ever since. Why? We believe it is because we are dedicated to providing our clients with exceptional customer service, high quality repairs at a reasonable price, and the convenience we offer.

Exceptional customer service:

- We will explain what is going on with your vehicle in a way you can understand. We will also save your old parts to show you exactly what failed.
- We are "women friendly"! Our staff is very aware of how intimidating and stressful auto repair can be—especially for women and single mothers!
- We are fleet friendly, offering Saturday service and special fleet pricing. Call us today for details!

High quality repairs:

- We have invested in the latest diagnostic tools and technician training, allowing us to work on both import and domestic vehicles, for much less than the dealers!
- All of our repairs come with NAPA's 12K/12 month nationwide warranty on parts and labor, and our 24K/24 month in-house warranty on parts and labor.
- We do every type of service: general maintenance and repairs, specialty diagnostics, electrical systems, brakes, tune ups, exhaust, transmissions, power doors and locks...you name it, we do it!
- We are a proud member of the Better Business Bureau with an A+ rating.

This is how your car will feel when it leaves our shop...and so will you!

Convenience:

- We can arrange a rental car at a negotiated rate with Enterprise and/or Avis, or give you a ride if you need one.
- We are open Saturdays!
- We offer up to 12 months interest free financing (on approved credit)! This program also doubles your NAPA warranty.
- We have a clean and professional facility. We have a safe, clean waiting area with toys and activities for children, and a variety of reading literature for adults.

These are just some of the reasons our clients won't go anywhere else for their automotive needs!
